About Me

I am a passionate Computer Science student currently pursuing my Bachelor's degree from Ramaiah Institute Of Technology. I love building projects that solve real-world problems and have experience in Full Stack Development, Mobile App Development, and Data Analysis.

Skills

Programming Languages: Java, C, C++, Python, R

Web Development: HTML, CSS, JavaScript, React, Node.js, Express, Flask, MongoDB

Mobile Development: Flutter, Dart

Tools & Platforms: Git, GitHub, VS Code, Postman

My Projects

Empowernet

Python, Flask, Html, CSS, JavaScript

Fostering inclusivity and accessibility to empower people with disabilities and low-income communities with education and economic opportunities.

Healthcare Booking System

MongoDB, Express.js, React, Node.js

Developed a Healthcare Booking System using the MERN stack, enabling patients to book appointments and doctors to manage availability.

Cloak of Lupin

Flutter, Dart

A Flutter-based password manager that securely stores data using AES encryption and protects keywords by salting and hashing.

Faculty Profile Builder

Python, Flask, Html, CSS, JavaScript

A web-based platform that enables faculty members to easily create and manage their professional profiles.

Automatic Gene Disease Detection System

HTML, CSS, JavaScript, Python

Analyzes genetic data to detect potential diseases linked to specific gene sequences, useful for healthcare professionals.
